1. Consolidated Results for the Three-Month Period Ended June 30, 2013

(1) Analysis of consolidated business results

The Square Enix Group (the "Group") is continuing determined efforts to strengthen the competitiveness and profitability of its business segments of Digital Entertainment, Amusement, Publication and Merchandising.

Net sales for the three-month period ended June 30, 2013 totaled ¥24,083 million (a decrease of 3. 3% from the same period of the prior fiscal year), operating income amounted to ¥689 million (operating loss of ¥1,163 million in the same period of the prior fiscal year), ordinary income amounted to ¥1,498 million (ordinary loss of ¥2,049 million in the same period of the prior fiscal year).

In response to the latest environmental changes in the game industry, the Group has implemented a change in its development policy, and conducted a comprehensive review on work-in-progress game titles during the three-month period ended June 30, 2013. As a result, the Group has decided to book a loss on evaluation of content (approximately ¥1.6 billion) as an extraordinary loss, which resulted in net loss amounted to ¥493 million (net loss of ¥2,077 million in the same period of the prior fiscal year).

A discussion of results by segment for the three-month period ended June 30, 2013 follows.

Digital Entertainment

The Digital Entertainment segment plans, develops, distributes and operates digital entertainment content primarily in the form of games. Digital entertainment content is offered to meet customer lifestyles across a variety of usage environments such as consumer game consoles (including handheld game machines), personal computers and mobile phones (including smartphones).

During the three-month period ended June 30, 2013, the sales of console games were weak due to no release of new major titles. On the other hand, content on platforms such as browser and smartphone has been making smooth progress. Among others, "SENGOKU IXA," a browser game, has been showing steady performance, and "Kaku-San-Sei Million Arthur," a social game, has become an instant hit in Taiwan, following Korea, while its platform has expanded to PlayStation Vita.

"DRAGON QUEST X," the major MMORPG released in August 2012, has been showing steady performance. Net sales and operating income in the Digital Entertainment segment totaled ¥11,577 million (an increase of 2.1% from the same period of the prior fiscal year) and ¥1,318 million (operating loss of ¥111million in the same period of the prior fiscal year), respectively.

Amusement

The Amusement segment consists of the operation of amusement facilities and the planning, development and distribution of arcade game machines and related products for amusement facilities.

During the three-month period ended June 30, 2013, the operations of the amusement facilities business experienced year-on-year growth in existing store sales, and this segment's performance has been making good progress.

Net sales and operating income in the Amusement segment totaled ¥9,719 million (a decrease of 2.6% from the same

period of the prior fiscal year) and ¥859 million (operating loss of ¥50 million in the same period of the prior fiscal year), respectively.

Publication

The Publication segment includes comic books, game strategy books and comic magazines.

During the three-month period ended June 30, 2013, sales of comics decreased compared to the same period of the prior fiscal year due primarily to the completion of TV animation series based on popular manga titles in the previous fiscal year.

Net sales and operating income in the Publication segment totaled ¥2,164 million (a decrease of 28.2% from the same period of the prior fiscal year) and ¥474 million (a decrease of 35.8% from the same period of the prior fiscal year), respectively.

Merchandising

The Merchandising segment includes the planning, production, distribution and licensing of derivative products of titles owned by the Group.

During the three-month period ended June 30, 2013, the Group continued to distribute and license items such as character goods and soundtracks based on the Group's own IPs while also strengthening its character goods lineup with additional products based on third party content and overseas expansions.

Net sales and operating income in the Merchandising segment totaled ¥623 million (an increase of 6.3% from the same period of the prior fiscal year) and ¥83 million (an increase of 2.3% from the same period of the prior fiscal year), respectively.

(2) Analysis of consolidated financial position

Assets

As of June 30, 2013, total current assets were ¥154,665 million, a decrease of ¥4,370 million compared to March 31, 2013. This was mainly due to a decrease in notes and accounts receivable of ¥10,732 million, while cash and deposits increased by ¥1,150 million, and the content production account increased by ¥4,137 million. As of June 30, 2013, total non-current assets were ¥43,707 million, an increase of ¥233 million compared to March 31, 2013.

As a result, total assets were ¥198,372 million, a decrease of ¥4,136 million compared to March 31, 2013.

Liabilities

As of June 30, 2013, total current liabilities were ¥34,920 million, a decrease of ¥ 2,493 million compared to March 31, 2013. This was mainly due to a decrease in income taxes payable of ¥742 million, and a decrease in provision for sales returns of ¥887 million. As of June 30, 2013, total non-current liabilities were ¥43,697 million, an increase of ¥240 million compared to March 31, 2013.

As a result, total liabilities were ¥78,618 million, a decrease of ¥2,253 million compared to March 31, 2013.

Net assets

As of June 30, 2013, net assets were ¥119,753 million, a decrease of ¥1,882 million compared to March 31, 2013. This was mainly due to net loss of ¥493 million, dividend payments of ¥2,301 million and an increase in foreign currency

translation adjustments of ¥721 million.

As a result, the consolidated equity ratio stood at 59.6%, compared to 59.3% as of March 31, 2013.

(3) Qualitative information on consolidated business forecasts

The business environment surrounding the Group is in the midst of major changes, where smart devices such as smartphones and tablet PCs are spreading rapidly, while the console game markets in North America and Europe are increasingly competitive and oligopolistic. In light of such environmental changes, the Group is focusing all efforts on a substantial earnings improvement by driving reforms of its business structure in order to establish new revenue bases. Given the environmental changes described above, it is expected that the consolidated forecasts for financial results will fluctuate ever-larger. The Group, therefore, has decided to make consolidated forecasts in a range of forecasted figures in lieu of specific figures, starting from the fiscal year ending March 31, 2014.
